**PATENT METALLIC BURIAL CASE**

THESE cases are of metal, heavily built, so as to be indestructible, are air tight, so cast as to be beautiful in form and press the body enclosed in them for any length time without decomposition. For persons desiring to preserve the bodies of deceased friends free from the effects of water and ordinary interments, or who desire to remain there to a distance for burial or to preserve the bodies of time before burial, they are invaluable. Their cost is little more than of a wooden coffin, and the weight about same.

An assortment of these cases may be found at J. J. Parish's Ware Room, Chester, S. C. Persons are solicited to call and examine the Orders supplied at the shortest notice.
